## EXPERIENCE

### Web Developer Executive

#### TMMS Solutions Private Limited

Feb 2023 - May 2024

Bangalore, India

- Developed interactive web applications with React.js and Next.js, using Tailwind CSS and Material UI for responsive design and optimal performance.
- Integrated external services through APIs, managing data retrieval, mapping, and filtration while ensuring accuracy and stability through effective error management and troubleshooting.
- Optimized application performance and data management for efficiency and user satisfaction, including comprehensive testing to boost speed and reliability.
- Regularly updated and managed code on GitHub, supporting team collaboration and version control.
- Provided leadership and direction as a team lead, facilitating project progress and coordination.

### Front-End Developer

#### Get Ahead Express

May 2021 - Dec 2022

Remote

- Front-end development with reusable React component + CSS modules approach and further support.
- Responsive layout support (desktop/tablet) using media queries.
- Used React-Router to turn the application into Single Page Application.
- Used Chart.JS to Visualize API data into the Graph.

## PROJECTS

### GIPHY-Clone

#### React, Context API, TailwindCSS

- Developed a GIF search and display application mimicking GIPHY's functionality. Utilized React.js for dynamic content and Tailwind CSS for responsive, visually appealing design, integrating the GIPHY API for seamless data retrieval. [Link](#)

### E-Commerce Website

#### React.js, Styled Component

- Developed an e-commerce site with React.js and styled-components, including login/logout features and product filtering. Integrated React Router for navigation, third-party APIs for enhanced functionality, and Chart.js for data visualization. [Link](#)

### Admin Dashboard

#### React.js, Material-UI, Sass

- Developed a custom Admin Dashboard with React.js, integrating Material-UI for component design and Sass for styling. Delivered an efficient and visually appealing solution for data management. [Link](#)

## SUMMARY

"Front-end software engineer passionate about creating intuitive, user-friendly web applications. Skilled in Next.js, React, JavaScript, CSS, and so on. Proficient in responsive design and implementing business logic. I'm seeking to expand my skills and become a full-stack software engineer. I am fueled by the excitement of developing applications and tackling thought-provoking tasks and enjoy learning and operating new technologies"

## SKILLS

HTML

CSS

Bootstrap

Material UI

Tailwind CSS

Chart JS

JavaScript

ES6

React.js

React Hooks

Context API

Next.js

Node.js

redux

VS Code

GitHub

Vercel

Bitbucket

## STRENGTHS

Hard-working

Self-motivated

Focused

Problem Solving

Positive attitude

Flexible & Adaptability

Leadership

Time Management

## EDUCATION

### B.E. in Computer Science Engineering

#### Lakshmi Narain College of Technology, Bhopal

Aug 2014 - June 2018

## EXTRACURRICULAR

- Founded and managed "Help n Hand" startup, showcasing entrepreneurial drive and project leadership.
- Orchestrated successful events as Head Coordinator, demonstrating effective organizational and teamwork skills.
